PARENTING TIP OF THE MONTH:

Children love to read the same book repeatedly, eat the same lunch every day and they do best, in fact thrive, on a daily routine. The predictable makes children feel secure and competent because they know what to expect. With little children, routines for mealtimes, bed and bath times, prayer time and even playtime, can be a great comfort, making for happier children. This same wellness from routines also works for older children. The more routine in their lives, the more relaxed, and happy their personality will be. So, start the New Year by creating a schedule for all family members, try it out and see how much peace can come to your household!
